

# Building Committee Survey - 2009

---

1. What do you like best about the current space at Prince of Peace that you use for your ministry?

The space is intimate and we are practical in how we use the space. Offices are shared, classrooms are multi-purpose, etc.

2. What (if anything) makes you feel we need some more space?

Mainly the size of the Sunday School classrooms. I think space is limited during the Sunday School hour but we are making it work. Besecker Youth Center classrooms are only big enough for a table and chairs. Some Sunday School lessons suggest activities that our teachers just have no room to enact.

3. Is your ministry limited by our current space?

Yes, as described in Question #2

4. What would make Prince of Peace a more welcoming space?

I think POP is very welcoming.

5. How can we improve our church's visibility?

I don't think there is a problem with the church's visibility.

6. In what ways could your future ministries be improved by adding or changing our current space?

There are many possible improvements – larger classrooms, larger fellowship hall, movie room, ...

(Please see note below)

7. Where to you feel our/your ministry will be in 5 years?

Hopefully the ministry will have grown and income will have grown as well.

8. What would make your space more comfortable?

9. Do you have any ideas for better utilizing the space we have outside our buildings?

10. Would any of your suggestions change if we evaluated them from an environmental perspective?

\*\*I think we need to deal with our current budget issues as we are not even meeting our operating expenses. This is the wrong time to be thinking about expansion. I'm having trouble jumping ahead of where we are now to answer these questions.
