

BUILDING COMMITTEE SURVEY

1. What do you like best about the current space at Prince of Peace that you use for your ministry?

The Sanctuary arrangement seems to be working fine.

2. What is it that makes us feel we need some more space?

The Music Room is really inadequate. We need a space totally dedicated to the Music program not one shared with other activities such as the Quilters and/or the money counters on Sundays. The new room needs to have more shelves and bookcases. As far as Sanctuary space, we are constantly moving around to accommodate the choir, bands, etc. It would be nice to have space large enough to accommodate all.

3. In what way is your ministry limited by our current space?

Answered in Question #2.

4. What would make Prince of Peace a more welcoming space?

More artwork/photograph/decorations would be more appealing. The chairs stacked up in the Narthex are also an eyesore.

5. How can we improve our church's visibility?

We need to have a much better sign. It should be larger with better lighting. In addition, the parking lot is very dark and should have more/better lighting for the safety of members and visitors alike.

6. In what ways could our future ministries be improved by adding or changing our current space?

Answered in Question #2.

7. Where do you feel our/your ministry will be in 5 years?

Hope to be doing more music and more creative music in the next five years. Would like to involve the congregation more, specifically highlighting a member's own special talent(s). To this end, we would like to include more children of all ages.

8. What would make our space more comfortable?

Certainly a larger space would be more comfortable. Also, more privacy or more space designed for special use.

9. Do you have any ideas for better utilizing the space we have outside our building?

Perhaps better maintenance, such as more landscaping, more flowers to make our church more appealing.

10. Would any of your suggestions change if we evaluated them from an environmental perspective?

None that we can think of.
